Features & Amenities

- One of the city's famous buildings
- Revolving floor is present

Facts

- The tower has three observatory levels. The highest is at 350 metres, and is called the Space Module. The second is at 263 and 259 metres and is called the Sightseeing Floor. And the lowest, the Space City, is at 90 metres. There is also a revolving restaurant at the 267 metre level.
- The design of the building is based on a Tan dynasty poem about the haunting sound made by a lute.
- The smallest sphere at the top is 14m in diameter.
- Pearl Oriental TV Tower also has a 20-room hotel called the Space Hotel, located in the five smaller spheres between the two biggest ones.
- The Oriental Pearl TV Tower is member of the World Federation of Great Towers.
- The three columns between the two largest spheres are 9 meters in diameter, and the big spheres are 45 meters (upper) and 50 meters (lower) in diameter.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
