Features & Amenities

- One of the city's famous buildings
- Floodlighting at night
- Observation deck on roof
- Transmission antenna on roof

Facts

- The first floor was completed on April 1, 1888, and the second floor on August 14, 1888.
- Paris - Eiffel Tower, a replica over half the original's height, was built in 1999 on the Las Vegas Strip.
- The Eiffel Tower is located on the Left Bank of the River Seine, at the northwestern extreme of the Parc du Champ de Mars.
- This was the tallest man-made structure on earth until the Chrysler Building was completed in New York in 1930.
- The inclined elevators travel over 100,000 kilometres (62,000 miles) each year.
- From 1926 to 1936 the tower was decked in coloured lights which included advertisements for the Citroën car manufacturer.
- In 1969 a small ice skating rink was opened on the lower platform; it reopened in December 2004.
- The Eiffel Tower was the world's first structure to reach and exceed 1,000 feet in height.
- The structure is repainted every seven years with 50 tons of paint.
- The total original height in 1889 was 312.27 meters, including the flagpole.
- In 1957 a new transmission antenna raised the total height to 320.75 meters.
- In 2000 a new antenna raised the total height from 318.7 m to 324.0 m.
- Construction began January 1887, and foundations were completed on June 30 of the same year.
- The Eiffel Tower is not only Paris' most famous icon but is also an internationally recognised symbol of France and is one of the world's most famous structures.
- The metal frame weighs 7,300 tons whilst the total weight is 10,000 tons.
- In 2006, 6,719,200 people visited the tower.

• The lantern on top of the structure was completed March 31, 1889 and was lit with powerful electric floodlights, a hit of the 1889 Universal Exposition.
• To date, the tower has changed colour six times.
• Rivets used were of the type employed in locomotive boilers.
• The tower was originally built for the Universal Exposition which celebrated the centenary of the French Revolution.
• The total construction period was 2 years, 2 months and 5 days.
• Contraction and expansion caused by changes in temperature result in a height variation of 18 centimetres (7 inches).
• Around 5,300 schematics were produced by 50 engineers and designers, 100 ironworkers fabricated the tower's 18,038 components whilst 121 men worked on the site.
• Wind causes the top of the tower to sway by as much as 7 centimetres (2.7 inches).
• Incorporated into the tower's second level at 125 metres (410 feet) is the famous Jules Verne Restaurant, managed by Alain Ducasse, which is accessed by its own private elevator in the south pier.
• The Eiffel Tower was the inspiration for both Blackpool Tower and the King's Dominion Eiffel Tower.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
