Features & Amenities

- One of the city's famous buildings
- Observation deck on roof

Facts

- Around the turret and the top of the side arms are large sculptures of vases with ears of wheat. They are a symbol for the agricultural fertility of the Ukraine, formerly known as the "bread basket" of the Soviet Union.
- World's tallest hotel when completed, surpassed by Westin Peachtree Plaza.
- A plafond portraying a people's festival in the Ukraine decorates the center of the vast entrance lobby.
- During the 1993 October siege of Government of Russia Building, the front-facing rooms were evacuated as many stray bullets were flying around.
- Situated across the Moskva River on the bank opposite Government of Russia Building.
- Tallest hotel in Europe, including the 75 meter architectural spire on the top.
- In 1974 a monument to Taras Shchevchenko, one of the greatest Ukrainian authors, was built on the square in front of the hotel.
- Dirt, grime and soot of some 40 years have eaten into the facade of the building. On the 850th anniversary of the Russian Capital, celebrated in 1997, it was decided to give the hotel a facelift and to polish the gray stone to its original color.
- There are 1,627 beds in the hotel.
- The side arms of the hotel, 8 to 10 storeys high, were designed for living accommodation and contain 254 rooms.
- The hotel has a very unique fire system outside the building of a purely Russian invention. A maximum of ten people can use a Kapron chute to slide down at the same time. (Kapron is a material similar to nylon).
- An observation deck at the top opened in 2004.
- The building was portrayed on an old 1 Ruble stamp from 1950.
- It is said that on a clear day one can see all the way to the outskirts of Moscow from the observation deck.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
