Years and costs

Year (construction end)	1984
-------------------------	------

Features & Amenities

- One of the city's famous buildings

Facts

- The glass and steel multi-atrium core is recessed from the red granite-clad office complex, creating an overall effect of two towers linked by glass.
- A nine-story lobby affords tenants and visitors an expansive view of the surrounding city.
- The Huntington Center replaced the Neil House.
- Huntington Center was inspired by the existing Ohio Statehouse on the State House Lawn.
- Covered walkways exist at the second level. They connect to the existing Huntington Bank Building to the north and to the Center's attached low-rise hotel and parking facilities to the west.
- This is the tallest building completed in Columbus during the 1980s.
- The office tower is situated along an axial corridor that originates with the Ohio State Capitol building to the east and terminates at the Scioto River to the west.
- The top of the building rises two stories in a series of stepped greenhouses to create penthouse office space.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
