Features & Amenities

- One of the city's famous buildings

Facts

- The hotel rooms are inside a cluster of faux New York skyscrapers which form a true skyscraper in their own right.
- These towers are designed after New York City buildings, such as the Empire State Building, Chrysler Building, Century Condominiums, Manhattan Municipal Building, Sony Tower, and others. Each tower has its own separate elevator bank.
- The Empire State Building and Chrysler Building sections actually have to be called the Empire Tower and Chrysler Tower to avoid copyright infringement.
- Like New York City's Empire State Building, the hotel's Empire Tower was the tallest building in the city in the early 2000s.
- A 10-level garage provides parking for guests.
