Features & Amenities

- One of the city's famous buildings

Facts

- When the building is viewed from either side, it resembles the letter H.
- The Hennepin County Government Center straddles 6th Street South between 3rd & 4th Avenues South, allowing for half-block plazas to the north (across 5th Street from Minneapolis City Hall) and the south (across 7th Street from Accenture Tower).
- The adjacent block of 5th Street was permanently closed to vehicular traffic in early 2002 to make way for a new light rail station serving the Hennepin County Government Center and Minneapolis City Hall.
- The building is connected to the US Bank Plaza and the 4th Avenue Parking Ramp by skyway.

Email	sales@emporis.com	Tokyo	04:00 pm - 02:00 am

- The building was opened May 24, 1977.
- 11400 tons of structural steel were used in the building's construction.
- The building's foundation consists of 119 perimeter caissons, with the interior columns supported on spread footings.
- The building is essentially two towers separated by an atrium rising the full height of the building. The west tower houses primarily administrative offices, while the east tower has many courtrooms.

Involvement companies

Architect.....

John Carl Warnecke & Associates
 San Francisco
 U.S.A.

Peterson, Clark & Associates
 Minneapolis
 U.S.A.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
