Facts

- The centerpiece of the project is a 6-story canoidal (sloping ellipse) skylight between the two podiums.
- The site is a full block bordered by Third and Lexington Avenues on the east and west, and by 59th and 58th Streets on the north and south.
- The complex consists of a condominium tower on a 9-story base of offices, with an 8-story office/retail wing to the west. Both the low-rise and high-rise sections have backlit mechanical screenwalls.
- Wind-induced structural movement is countered by a dual-mass supplementary damping system.
- The security guards are supposedly trained to tackle anyone who attempts climbing the horizontal metal rims that rise from the street level up the tower and the annex.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
