Floors (overground)	13	Gross Floor Area (GFA)	Contact us

Years and costs

Year (construction start)	1986	Year (last renovation)	1998
----------------------------------	------	-------------------------------	------

Year (construction end) 1988 Building costs \$ 10,000,000

Facts

- This building was together with Herningcenterets Kontorhus=Herningcentrets Højhus] one of the few highrises built in Denmark during the 1980s, among a large number of proposed buildings.
- Today this is the tallest building in Herning, surpassing the previous tallest Herning Højskole.
- Two smaller office buildings are located in front of the high-rise and are connected through the lobby.
- The 41 apartments range from 100,43 to 223,94 sqm.
- This building was in 1998 converted from an office building to a residential building, after it had been almost empty since completion.
- The design of this building is similar in many ways to Edificio Itaú in Montevideo, Uruguay.
- Approved by Herning City Council on July 16th, 1986.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
