City Name	Penang Island	Longitude	Contact us

Description

Main Usage hotel

Spatial dimensions

Height (estimated) 258.88 ft **Units** [Contact us](#)
Floors (overground) 20

Facts

- Owing to the very restricted site, carparking is divided into a basement carpark and an annex which houses three stacks of mechanical, rotary carparks.
- The design and orientation of all the hotel rooms take into account the view of Penang Hill to the west as well as the city harbor view to the east.
- The undulation of the surface gives the otherwise simple building an interesting surface texture.
- The Sheraton Penang is a 20-story building and has 300 rooms. 3,000 square meters of office space occupy a corner of the building from the 16th to 20th floors.
- The structure is a reinforced concrete frame with external walls of pre-cast concrete panels pre-finished with mosaic tiles.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
