

City Hall

Identification

EBN	159693
Name	City Hall
Alternative Name	More London Building 2, GLA Headquarters The Helmet
Construction Type	high-rise building
Complex Type	mixed-use
Complex Name	More London
Current Status	existing [completed]

Location

Continent Name	Europe	Postcode	SE1
Country Name	United Kingdom	Address (as text)	The Queen's Walk
State Name	England	Main Address	The Queen's Walk

Metro Area Name	London Metro Area	Latitude	Contact us
City Name	London	Longitude	Contact us
District (1st level)	Southwark		

Description

Structural Material	composite structure	Main Usage	city hall
Architectural style	modernism	Side Usage	commercial office

Spatial dimensions

Height (structural)	147.64 ft	Workplaces	Contact us
Height (tip)	147.64 ft	Parking places	Contact us
Height (roof)	147.64 ft	Elevators	7
Floors (underground)	2	Gross Floor Area (GFA)	Contact us
Floors (overground)	10		

Years and costs

Year (construction start)	2000	Year (construction end)	2002
----------------------------------	------	--------------------------------	------

Features & Amenities

- One of the city's famous buildings
- City landmark
- Handicapped accessible
- Observation deck on roof
- Raised floors are available
- Solar panels are installed

Facts

- Cooling for the building is provided by groundwater pumped round the building from bore holes sunk to the level of London's water table. The water is further used to fill the lavatory cisterns before being flushed out and represents a considerable saving in energy use.

- The interior's spiral walkway is similar to that of Berlin's Reichstagsgebäude.
- Natural shade from direct sunlight is provided by the distinctive stepped façade and any internally generated heat is recycled, obviating the need for chilling units.
- The shape of the building, which is a modified sphere, is angled to ensure minimal heat gain in summer and minimal heat loss in winter and uses only 25 percent of the energy consumption when compared to a conventional four-square building of similar volume.
- Directly to the west lies an amphitheatre fashioned from limestone owned by More London which, as a public venue, can accommodate up to 1,000 people and is known as 'the Scoop'.
- The building's spiral ramp is 0.5 km (0.31 miles) long.
- The building comprises public facilities, committee rooms and a meeting chamber which can accommodate up to 250 members of the public.
- Every one of City Hall's glass panels is unique and is cut by laser.
- City Hall was opened by Queen Elizabeth II in July 2002.
- The top storey is referred to as 'London's living room' and leads out onto a balcony providing a fine 360# panorama of the city.
- The building's floor space has the flexibility to be arranged from open-plan to cellular offices.
- City Hall is clad with 3,844 glass panels (7,300 square meters) of triple-glazed, low E glass incorporating shading devices.
- In 2007, solar panels were installed on the roof to further increase the building's environmental sustainability.
- The building is one of the most energy efficient in London.
- Although City Hall is owned by More London, the Greater London Authority has a 25-year lease on the building at an annual rent of £393 per square meter (£36.50 per square foot), whilst the British taxpayer paid for an internal fit-out.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
