</table>

### Features & Amenities

- City landmark
- Design is winner of a competition
- Double-decker elevators present
- Observation floor is available

### Facts

- The Center is the first building in Tianjin to have double-decker elevators.
- Tubular steel columns filled with high-strength concrete support the tower, while its tapered form incorporates steel plate shear walls.
- The Center serves as a visual point of reference for Tianjin's visitors and residents, marking the city center.
- The "Sight Seeing Hall", located at 308 meters, offers its visitors a 360° view on Tianjin.
- The building was topped out on January 14, 2010.
The Center is the world's tallest steel-only walled building.
The building won the "Award of Excellence" in the category "Landmark Structures", awarded by the Structural Engineers Association of Northern California.
The Center provides 240,000 square meters of first-class office space.
The pleated glass cladding that encloses the tower recalls the structure and lightness of Chinese paper arts.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors
- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities
- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors
- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work
- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
